

FIRE BLANKET FOR ELECTRIC, HYBRID AND FUEL CARS (EXTENDED KIT)

WINGS is committed to shaping a future where electric mobility is accessible and **safe** for everyone.

By delivering **innovative solutions** in mobility and safety, the company contributes to sustainable social development and environmental protection.

WINGS focuses on creating technologies that **minimize risks** associated with **electric vehicles** while ensuring that charging these vehicles is as convenient and efficient as possible.

The company not only offers products and services but also prioritizes a **positive impact** on the **community and the environment** in which it operates

The product is recommended by CNBOP-PIB

WHAT'S INCLUDED?

Cabinet

Fire blanket

Platform

**2 × protective
masks with
replaceable
filters**

**2 × fire-resistant
gloves**

FIRE BLANKET EXTENDED KIT

FIRE BLANKET
8m x 6m

Storage

The cabinet is designed to ensure safe and convenient storage of the fire blanket, guaranteeing **quick access and immediate readiness in emergency** situations. The stainless steel construction, aluminum enclosure, and key-lock system provide maximum **durability and security**.

Accessibility

The system features a mobile platform designed for **fast and effortless transportation** of the fire blanket directly to the emergency location.

Accessories

The set includes **two protective masks with replaceable filters** and **two pairs of fire-resistant gloves**.

Upon customer request, the cabinet can be expanded with additional safety equipment such as a defibrillator, reflective vests, a first aid kit, a fire extinguisher, fire hooks (for covering taller vehicles), a smaller fire blanket for electric scooters, or an additional fire blanket.

Personalization

Fully adaptable to the customer's **individual preferences** and branding guidelines.

FIRE UNDER CONTROL

WINGS fire blankets are manufactured from high-performance fiberglass fabric coated with silicone, **ensuring effective containment and control of vehicle fires** - particularly those involving electric vehicles.

CAR FIRE BLANKET

(Features)

Effective containment and control of vehicle fires
